THE END OF THE MATTER.

The Keogh prison bill was defeated in the senate on Tuesday afternoon. Mr. Keogh had done some hard work for his pet measure, spending much of his time in nursing its chances. Of course, it was an iniquitous bill, full of disaster for the state and injury to the prisoners. But a majority of the assembly voted for the passage of the bill, and why, no one who is not influenced by demagogism, can understand. It is a surprise that the Wisconsin assembly should so forget its duty, and prove faithless to its obligations to the people they represent, as to vote for a scheme which could do nothing else than shame the state and destroy the efficiency of the prison. But demagogues are always on hand and they never slumber nor sleep, so that no one need be surprised at anything they may do.

The Wisconsin State prison was never in better condition than it is now. The state board of supervision has inaugurated all possible reforms in the prison. The prisoners were never better cared for than now; and in addition to these facts the prisoners earn four-fifths of their own support.

The Milwaukee Sentinel which has done some splendid work in opposing the Keogh "prison-idleness bill" gives some facts in connection with the present management of the state prison that should be carefully read:

"The shoes made in the Wisconsin prison are not sold in this state.

"The material for the manufacture of prison shoes is mostly bought in this state.

"The shoes made in the Wisconsin prison do not compete, locally, with the shoes made by manufacturers outside the prison.

"The prison labor of this country is divided pretty fairly between a half dozen large industries and a score of smaller industries.

"The Wisconsin convicts make shoes that are sold in remote states and territories; convicts in other states make furniture and other articles. On the whole, prison labor is as fairly divided among different industries as it can be if convicts are to earn anything like their own living.

"So it simply comes to a question whether convicts shall or shall not export their wares.

"They cannot begin to support themselves under the proposed Keogh method. Taking the country as a whole, it is those states having the contract system that convicts earn, on an average, over 60 per cent of their own support; while in those states having the state-earned plan, they earn about 30 per cent of their own support.

"In Wisconsin we are exceptionally fortunate, for the convicts here earn over 80 per cent of the cost of their own support."

WHERE THE TROUBLE COMES IN.

Certain of the Calhounist and Cobdenist journals of Indiana are striving to read the South Bend Times out of the party, just as certain Calhounist and Cobdenist in the southern tier are striving to read the Atlanta Constitution, the Birmingham Age-Herald, the Macon Telegraph, the Charleston News and Courier, and all the kindred democracy out of the party. The trouble, however, after reminding its adversaries that Mr. Randall's views were incorporated into the platform of 1884, upon which Mr. Cleveland was elected, and were denied recognition by the platform of 1888, upon which Mr. Cleveland was re-elected, asks of its Calhounist persecutors: "Because the republicans are protectionists must we be free traders?" The question is well put. Jackson was no free trader, nor was J. T. Wilson. Free trade democracy dates no further back than to Calhoun. And, as the South Bend Times has it, if Calhounism is to be made a cardinal point in the creed of northern democracy, "the only duty left to us will be to perform the funeral rites of the democratic party." This is the clever and cautious view of the New York Sun, to the policy of which the South Bend Times adheres.—Inter Ocean.

The trouble with the national democratic party is the lack of a definite policy regarding any great public measure. It cannot agree on the question of the tariff and never has agreed thereon, and probably never will. But what is sad for the democracy is that the free trade leaders of the party dictate the shiftless policy concerning import duties. Had it not been for the free wool, and in fact the free trade message of Cleveland one year ago last December, there are chances that he would have been re-elected last year. But the attempt to ride rough shod over the considerable wing of the democratic party which believes in home protection was the forerunner of defeat. The democratic party would have gone to pieces in 1884 notwithstanding the multitude of republican blunders in that campaign. If the warning voice of Randall had not been heeded in so shaping the platform that on the tariff question he meant protection to the Randalls in Pennsylvania, and free trade to the Carlisle men in Kentucky.

The Inter Ocean asks these three questions:—Are we about to see a new departure in democracy? Is there to be a Hill democracy, with Randall as its premier and protection for shibboleth, and a Cleveland democracy, with Mills for its prophet and free trade for its watchword? Is the democratic party disrupting itself in 1889 as it was in 1884? It would seem from the discordant

voices that come from the democratic press of the east, that there will be two democratic parties—one which will follow Randall and the Sun, and the other which will follow Cleveland and the Mills and the World. It does not require much depth of political wisdom to foresee the consequences of this discord. It is simply democratic disruption.

Sens or Kennedy, of Appleton, who by the way was formerly a resident of Janesville, made a little speech in the senate on Tuesday afternoon, in which he said that the appointment of Patrick Egan as minister to Chili, will cost the democratic party 100,000 Irish votes at the next election. From the point of view taken by Senator Kennedy the democratic party hasn't a bright outlook for 1892. Of course Egan knew a thing or two when he crowned Patrick Egan, the Irish republican, with the dignity of envoy extraordinary and minister plenipotentiary of the United States to Chili.

A Philadelphia detective says that one remarkable effect of the high-license law has been to free the city almost wholly from professional burglars, thieves and other criminals. "These people," he says, "always associate together, and when their resorts and haunts were broken up they cleared out. There is no place for them to go, no place of rendezvous, and accordingly they have gone to other places where saloons and all night dives such as they frequent are permitted to flourish." New York city, with its ten or twelve thousand saloons, probably gets Philadelphia's former quota of crooks.

The New York World hoots at the ticket for 1892 mentioned by the New York Sun. "Hill and Randall," it says: "It would not come within 50,000 votes of carrying Indiana in 1891." The indignation is that our democratic friends will furnish the republicans with a good deal of fun in '92.

The Chicago postoffice has a Sexton. It has been in need of something of that kind during the past four years.

Peculiar Inscriptions.

We are grateful to a French writer who has with commendable industry collected many of the ancient mottoes traced upon old tombstones and monuments. He says: "In many parts of Germany and in Bavaria and Saxony may be read these beautiful words of welcome. 'God bless thy coming in and thy going out; or 'Let the blessing of God rest upon this house, and upon all who enter or leave it.'"

"Not unfrequently a touch of humor crept in among the staid old burghers. Upon a candle manufactory was emblazoned: 'If, O people, death in thy house be like the snuff of the candle of life, thou knowest by the odor whether it be a tallow candle or a wax one.'"

"In the great dining hall of the fortress of Marienburg, in western Prussia, is inscribed: 'He who wishes to eat here must be delicate in his eating, chaste in his conversation, and peaceful in his manner; above all, pious and loyal; if not, he will soon receive notice to quit.'"

Rubies and Volcanoes in Australia.

An Adelaide special says: David Lindsay, the explorer, has returned from the Macdonnell ranges. He says that the men on the ruby fields there number 300, but prospecting and work of all kinds are at a standstill owing to the absence of rain. Alice Springs has no rain fallen since February. He is confident that if rain fell a rich miner's field would be opened up.

Mr. Lindsay asserts that the statement by Police Trooper Willshire about the existence of an active volcano some two hundred miles northwest of Alice Springs is correct. The blacks at Alice Springs who come from that part of the country are so precise in their statements that Mr. Lindsay is sure there is a volcano there. The natives say a hole in the locality indicated is always burning. It grows and throws up sand and stone. They do not care to talk much about it, asserting that "it is no good; black fellow did not make it."

Card Telegrams.

A new scheme of card telegrams is being tried in Hungary for use in districts having a postoffice but without a telegraphic service. Cards sold at the postoffice at the price of 35 kreutzers for five words, excess to be paid for by additional postage stamps, to be affixed at the corner. The telegrams can be put in any letter box and is forwarded to the nearest telegraph office, and from there it is dispatched without further delay or charge. It is not so generally known to the public as it might be that in England telegrams can be posted at any pillar-box and will be sent on from the nearest telegraph office. Such a scheme of special forms for this purpose in the shape of cards, might render this of great practical utility, and the example of Hungary is worthy of the attention of the postoffice authorities.

A War Ship Sent After a Trunk.

When the Duke and Duchess of Edinburgh went recently to Greece it was discovered on arriving at Athens that a trunk containing certain indispensable articles of attire belonging to the Duchess had been left behind at Malta. A telegram ordering the said trunk to be sent by the next day's steamer would have been the cheapest and readiest way of obtaining it, but the Duke of Edinburgh actually dispatched one of the vessels of his squadron all the way to Malta to bring back the trunk and its contents, thereby saving himself about a sovereign for telegram charges by sea. The trip of Her Majesty's ship must have involved a cost to the taxpayers of some hundreds of pounds.

Two Alabama Brothers.

A very unusual incident occurred recently in Tuscaloosa, Ala. A young white man was convicted before a justice of the peace in one of the country precincts, some ten or twelve miles from that city, of petty larceny, and sentenced to imprisonment for twenty-four hours. His brother was deputized as an officer to bring him to jail. The two brothers came into town, one a prisoner and the other an officer in charge. They proceeded to the jail, where the official brother turned his prisoner brother over to the jailer to be placed in confinement.

Murder and Suicide in Buffalo—Bold Attempt to Rob a Bank—The Criminal Record.

CHICAGO, April 17.—A case of undoubted murder and suicide is reported from Harlem to-day. Early this morning some men entered a vacant house a few blocks from the depot and were endeavoring to find the dead body of a young woman lying upon the floor and by her side a little child 11 years old, who was also nearly dead.

The two were discovered by Officer Brown, who was attracted to the place by the howling of dogs. The daughter was given stimulants and was finally able to tell the following story: She said her father was a harness maker employed by Kemp, 464 Wells street, Chicago. Himself and mother left home yesterday morning after walking some town took a car and rode as far west as West Fortieth street. They then walked the rest of the way, reaching Harlem some time during the night. She said her mother told her she was going to visit a family named Herman, but did not tell her where they lived.

About 3 o'clock they entered a little strip of woods where the mother took from her pocket a package of "rough on rats" and insisted upon her daughter taking a quantity of the poison, which she did, after which the woman took a large dose of the same stuff.

The balance of the afternoon and evening was spent in wandering aimlessly about, both suffering from the action of the poison. Some time during the night they began to build in course of erection and entered it. The two found their way down the rear bed room, where they lay down upon the bare floor, side by side, to die. The mother was relieved by death, but the daughter suffered untold agony until found this morning.

She was taken to the residence of Mr. Lang in Harlem, where kind hands did what they could to alleviate her sufferings. The physician who is attending the girl says she can not recover, and will die before night.

Charles Bruckner was seen this afternoon and said his wife and daughter left home yesterday morning and he had been looking for them since. The information of the tragic end of his wife and approaching death of his daughter was given him and the man was overcome for a few minutes. He finally said he could give no reason for the action of his wife unless it was a little dispute they had had about the disposition of the girl. Mr. Bruckner said he was very much shocked and had suggested about having her sent to a reform school or some place of that kind. To this his wife objected, and they had a few words over it.

RESULT OF A LOVERS' QUARREL.

Albion Skinner Commits Suicide in the Presence of His Sweetheart.

VALPARAISO, Ind., April 17.—Albion Skinner, a well-known connected young man of this city, committed suicide last night in front of the residence of Miss Fanny Baum, five miles in the country. The two had long been acquainted and were considered the best of friends. Skinner called at the girl's residence last night and took her out for a drive. During the time an old misunderstanding was renewed, and when the couple parted Skinner told the girl she would not see him again, and spoke of killing himself. She disregarded the speech and called him to call again. She then went to her room, and on looking out the window, saw the deceased hitch his horse and take a revolver from his pocket. She called him by name, but he made some unintelligible reply, and the next instant was lying prostrate on the road, a bullet having pierced his brain. Nothing could be done to restore the unfortunate young man to consciousness, and he died this forenoon. While the prevailing opinion makes the case out a clear suicide, there are many who think that it is the result of accident, as the young man shot himself once before by carelessly handling a revolver.

NOT AFRAID OF ROBBERS.

A Canadian Banker Repulses Two Men Who Demanded His Cash.

LONDON, Oct. 17.—Two strangers entered the banking office of F. S. Clarke to-day. Frank Clarke was alone behind the counter. One of the men presented a pistol and called upon him to deliver his money. Clarke stood for a moment in astonishment, and the order was repeated rather impudently, "Hand over your money." The young man at once answered, "No I won't," and reaching quickly over the railing, grasped the barrel of the pistol and turned it against the other. The other stranger was standing at the door and saw the action of the first man. He secured the cash on a favorable opportunity. Upon seeing the bold stand taken by Clarke and his evident determination to fight, both men fled out of the door and down Richmond street. They were not captured.

MURDER AND SUICIDE.

Buffalo Has Two Sensations Which Stir Up the Authorities.

BUFFALO, N. Y., April 17.—The city is hardly recovering from the sensation produced by the attempted murder Sunday night, the perpetrator of which is still being sought feverishly through the city and suburbs, when word is received at police headquarters of a murder on Seneca street in a block known as one of the worst in the city. Thomas Dominguez has been living in the house with his wife, who was found this morning in one of the rooms lying on the floor with her face lacerated to pieces and her throat cut from ear to ear. The room resembled a slaughter-house. After killing his wife the murderer cut his own throat and lay by the floor dead. The authorities are becoming alarmed at the frequency of murders and suicides here.

Caught the Wrong Man.

WESTON, W. Va., April 17.—There were nearly 1,000 people at the depot last evening to witness the arrival of Richard Dowell, the man brought from Grand Forks, Dak., where he was arrested two weeks ago on the supposition that he was the murderer of John O. and Edward West, who were shot and killed while returning from church Dec. 23, 1888. Dowell was convicted but escaped from jail. Officers kept the crowd at a considerable distance from the train, but as soon as the prisoner appeared there were scores of shouts that he was not the man. The prisoner will probably be released.

The Hanging Route.

CHICAGO, April 17.—H. H. Angell, a prominent resident and business man of Oak Park, was found hanging in the barn in the rear of his residence, 111 Maple avenue Tuesday morning. The body was discovered by one of the members of his family. Mr. Angell was a coal dealer and had been in business in Oak Park since 1874. He had accumulated considerable property, and his business seemed to be a lucrative one. Deceased was about 43 years of age and had three children, four of them grown. The cause of his suicide is not known, although it is said he left a note for his wife, the contents of which have not yet been made public.

DESPERATE BANK ROBBERS.

They Stole \$14,000 From a Minneapolis Firm, But Are Finally Captured.

MINNEAPOLIS, Minn., April 17.—At 12:30 o'clock to-day four desperadoes entered the State bank, ordered the assistant cashier to throw up his hands, covered him with a revolver, while his companion jumped over the railing, grabbed \$14,000, then they fled. The man from the bank. He was captured with the money in an alley near by, his companion escaping. The robbers fired two shots at the assistant cashier, neither took effect. Adam Gwin, an employee of the Occidental mill, says as he was walking home last midnight he was met by two men who covered him with revolvers, took him to the mill, took his keys, attempted to get into the safe, but failing, took him to the river and threw him in. They fired at him as he swam away, but he escaped.

Killed by an Insane Man.

EVANSVILLE, Ind., April 17.—George Kerth, 27 years old and a brother-in-law of Sheriff Fritchey, died eight o'clock last night from the effects of a vicious kick by Lemuel Burns, a crazy man. At noon yesterday Burns got out of his cell in the jail and made a vicious attack on the jailer, who on finding himself not match for the lunatic called for help. Young Kerth, who was in another part of the jail at the time, ran to his assistance, and after a hard struggle Burns was overpowered and carried back to his cell. While being freed he sprang forward and gave Kerth a terrible kick in the pit of the stomach.

Shot Down in Cold Blood.

ELMIRA, N. Y., April 17.—The little town of Lockport, near Waverly, was thrown into intense excitement last night by the shooting of Mrs. Kellogg by Elsworth White. Mrs. Kellogg and another lady had been making an evening call on Mrs. White and when they left White followed them. The ladies, seeing they were pursued began to run, when White fired three shots at Mrs. Kellogg, all taking effect in her back, inflicting fatal injuries. White was arrested this morning and refuses to give any reason for the shooting. White is a hard character and has served a term in the penitentiary.

A Counterfeiter on Trial.

BOSTON, Mass., April 17.—Levi G. Pratt was arraigned for trial to-day in the United States District court on a charge of passing counterfeit \$20 and \$10 notes. He had been employed as agent for the sale of a counterfeit note detector. He was tried and convicted for a similar offense in Iowa and sentenced to five years in prison. He was pardoned by ex-President Cleveland in 1888.

Arrest of a Defaulting Treasurer.

NEW LISBON, Ohio, April 17.—New Lisbon's defaulting treasurer was arrested last night and his arrest was followed by law furnished bail in the sum of \$1,000. Lodge refuses to offer any explanation as to what has become of the missing money or how he used it. If the \$8,500 his bondsmen have secured property that may realize them \$4,500 to \$5,000.

A Nerve Prisoner.

JACKSON, Mich., April 17.—The trial of Latimer, the young man charged with the murder of his mother two months ago, began Tuesday morning. Latimer appeared in court faultlessly dressed and has made a bet that he will be acquitted. The prosecution and defense lawyers agree that he is the nervous prisoner they have ever seen.

Annie Redmond's Abductor Convicted.

CHICAGO, April 17.—Josie Gurley, who has been on trial for the abduction of Annie Redmond, was found guilty by the jury and sentenced to five years in the penitentiary.

LAWS FOR MICHIGAN.

The House Passes a Resolution for a Constitutional Convention.

LANSING, Mich., April 17.—Many of the session-keepers of Detroit have persistently refused to pay their liquor taxes. The State Tuesday adopted a resolution ordering the liquor traffic committee to investigate the legislation needed to enforce the existing law. The bill is known as the "Liquor Tax Bill" and is intended to increase the tax on liquor to \$2,000,000; allows mechanics' liens on wells and cisterns; allows the establishment of a manual training school in Jackson; and increases the penalty for kidnapping to imprisonment for life.

WISCONSIN LEGISLATURE.

Both Houses Rush Business Preparatory to Adjournment.

MADISON, Wis., April 17.—Three sessions of both houses were held Tuesday, and a great deal of work performed, killing and passing measures. The Keogh prison labor bill was killed. A bill was passed which related to the official printing in the city and county of Milwaukee was also defeated in the Senate. The Senate presented President Ryland with a gold ring with a diamond, and President Pro-Tem Dyson with a gold watch.

At Rhode Island's Capital.

PROVIDENCE, R. I., April 17.—The Senate to-day concurred in the passage of a bill establishing a naval reserve in Rhode Island. Scrofula is transmitted from parent to child, and thus becomes a family inheritance for generations. It is, therefore, the duty of every scrupulous person to cleanse his blood by a thorough and persistent course of Ayer's Sarsaparilla.

MRS. FRANCES CLEVELAND.

St. Paul Globe: The sweet bells of the White House were all jangled out of tune when Frankie left.

Louisville Commercial: Everybody parts with Mrs. Cleveland regretfully. Good luck and many happy days to the winsome lady.

Boston Globe: No lady ever retired from the White House with so many graceful and complimentary farewells from the press as does Mrs. Cleveland.

Philadelphia Record: As a shining example and inspiration to the young women of America Mrs. Cleveland has done great good to tens of thousands. She has won all and she makes her exit in the midst of general regret.

The Toledo Bee: It has been often and well said of Mrs. Cleveland she is the truest and best type of American girlhood and womanhood. Only 23 years old when she lays down the scepter of social rule at the capital she has made her history of the lives of the Presidents, second to none in every particular of success.

Davenport Democrat-Gazette: Mrs. Cleveland leaves the executive mansion wearing the crown of a queen, or what is more honorable, she will carry with her the respect and kind wishes of all the people, regardless of their station in life. By a rare tact, great good judgment, a generous heart, and becoming modesty Mrs. Cleveland has acquired herself, with the grace and art of a perfect woman.

Syracuse Standard: At the National capital the President's wife has been mowed up like a prisoner for three years, shunning to show her lovely presence much elsewhere because it was inseparable from the vulgar adulation of the inquisitive public. As plain Mrs. Cleveland she will be able to move about in the sphere which is hers by right of culture and refinement, admired for herself alone and respected solely for the loveliness of her character.

Brooklyn Eagle: Mrs. Harrison is reported to have been so captivated by the charms of Mrs. Cleveland that she is half sorry the Republican party triumphed. This is appreciation of the superlative sort. Ladies rarely go into ecstasies over each other, but when they do it makes all other forms of flattery pale. Mrs. Cleveland may now be said to have won her Waterloo. Wherever she goes new victories will await her as a matter of course, for she was born to conquer, but none of them can ever eclipse this one.

Boston Journal: There is at least one member of the outgoing administration who will be followed into retirement by the unforgotten respect of the American people without regard to political affiliations and party lines. From the beginning every one was prepared to think well of Mrs. Cleveland, but she has more than justified the favorable prophecies. Her frank simplicity and engaging candor of her bearing toward all whom she has met have won for her universal regard.

MOVING ON OKLAHOMA.

THE ADJACENT COUNTRY
ALIVE WITH SETTLERS.

The Anxious, Restless Throng Daily
Pressing Closer to the Borders of
the Promised Land.

ARKANSAS CITY, Kan., April 17.—There
has been an unbroken string of canvas-
topped wagons filing through town all day
on their way to the West and Arkansas
river camps, while as far north as fifty
miles the two wagon roads are filled with
settlers who are pushing forward to
Arkansas City. The train from Kansas
City this morning was made up of ten
coaches and carried about 500 passengers.
Among these was one man who will cut
quite an important figure in the settlement
of the Oklahoma country. He is John I.
Dillie of Huntington, Ind., register of the
United States land office at Guthrie. Mr.
Dillie, who is about 45 and nearly 6 feet
in height, was asked to what plans had
been made for the government of the office
of which he was about to take charge.

"I have made no plans whatever," was
his reply. "The work will be entirely new
to me, and I will have to learn it right
from the beginning. I can assure you
no matter what may be the rush I will
take my time. I propose to make no
errors and I can best avoid them by taking
my time."

Advices from Caldwell said that the
bridge over Pond creek in the Cherokee
outlet is in danger of collapsing, and that
the boomers there are greatly excited.
Many of them will leave Caldwell for this
point rather than take any chances on
crossing the Cherokee outlet on the 19th.
Measures are being taken to remedy mat-
ters, and it is expected nothing will in-
terfere with a safe passage on the date
mentioned.

Another report of high water comes from
a point near Guthrie, on Cimarron river,
and this is a source of much apprehension
to the boomers, and more particularly to
the Santa Fe railroad people. The Cimarron
is a very treacherous stream at its best
and the least rise will make a ford impos-
sible. The Santa Fe road crosses it about
two miles north of Guthrie, and if it is over
its banks it will cut off communication from
the town with two-thirds of the Oklahoma
country. The situation looked upon as
being an aggravated one by those who are
acquainted with the eccentricities of the
Cimarron.

Arkansas City now presents the appear-
ance of a country town on fair or clear
day. The streets are thronged with people,
and it is out of the question to expect a
room at any of the hotels. Many of the
strangers who have despaired in getting
shelter at the hotels, are now taking tents
and will share their lots with boomers.
Contracts were let to-day for the gov-
ernment building at Guthrie and King-
fisher. The lot will be 150,000 feet and will be
ready by Monday. The construction will
be in sections, and in this shape they will
be sent to their destinations ready to be
put together in an hour.

Another public official who passed
through the city to-day on the way to his
post is C. M. Barnes of Fayetteville, Ark.,
receiver of public moneys at Guthrie.

State colonies are being organized in the
camps here, the Illinois colony now having
1,200 members and Ohio and Missouri fol-
lowing in the order, named, with from
800 members down to about 300.

Permit was received here to-day by
United States Commissioner Bonnell from
the department for all persons going by
wagon to break camp the morning of the
19th and take the line to the north which
through the Cherokee strip to the north
line of the lands to be opened to settle-
ment.

The officers of the Santa Fe railroad
issued a time schedule to-day which will
go into effect on the morning of the 22nd.
At 9 a. m. the first passenger train for
that day will put out for the north. It will
be followed by freight trains carrying
fifteen minutes until all settlers are pro-
vided for. These trains will be followed
by several freight trains conveying camp
equipment, such as implements, household
goods, bedding, and other articles, and
ready to be fastened after the fashion of
King Solomon's temple. Three hundred
cars are now loaded waiting for the word
"Go." All eyes are turned to the word
and a commander of the troops here to-day
said that he apprehended no trouble or
strife among the people.

Will Begin the March April 19.
CALDWELL, Kan., April 17.—Capt.
Woodson said to-day that he would take
up the march to the north boundary of
Oklahoma Friday, the 19th. He will lead
with his troops and following will come
the boomers in their wagons. Capt.
Woodson expects the journey will occupy
three days, and he will hold the boomers
upon the border until noon of the 22d.
Capt. Hall of C. troop, Fifth cavalry, will
assist in guarding the Cimarron. The town
is full of excitement, and the white-
covered wagons are to be seen everywhere.
Their destination is Lisbon, the western
land office.

One of the boomers who arrived from
Colorado to-day reports that from the line
of Colorado to this point there is an
almost continuous line of wagons. The
adventurers who contemplated supplying
the wants of the thirsty received a severe
set-back to-day on the receipt by
Capt. Woodson of the following telegram
from Col. Wade, commander at Fort Reno:
"You will take all precautions to pre-
vent the introduction of liquor into the
Territory when the movement of settlers
begins."

Settlers Start from Wichita.
WICHITA, Kan., April 17.—Some 600
members of the old soldiers' colony left
here Tuesday morning, en route for a point
within about sixteen miles of Fort Reno,
whence they will march on the morning of
the 22d to land that has been selected for
colonization. The entire outfit left in
wagons and many women and children
accompanied their husbands and fathers,
besides a number of soldiers' widows and
other female boomers.

Those of Col. Cole's colony who propose
reaching Oklahoma by road have been
pushing out all day, and are expected to
will not leave until Friday, when the Rock
Island road will carry at least 2,000 men
to Pond Creek, the terminus of the road.
From there they travel by the Canadian
River to the mouth of the Canadian, where
Ball Green has entered into contract with
the Rock Island to rush their passengers
into Kingfisher on the 22d at the rate of
twelve miles an hour, so that boomers by
this route will probably be ahead of those
going to Guthrie.

The reports of high water in the Okla-
homa country are greatly exaggerated. A
party from Topeka arrived at Fort Reno
to-day, and from private telegrams learned
they had a very nice trip overlaid in
carriages, traveling from the terminus of
the Rock Island along the proposed
route.

Wild Rush Through Fort Smith.
FORT SMITH, Ark., April 17.—The rush
through this city to Oklahoma to-day was
decidedly the largest yet seen. Money
and labor are expended without stint in
the great effort to cover in a hurry the dis-
tance from here to the Oklahoma border.
The weather remains clear and low water
in the river affords an excellent opportu-
nity for crossing without danger. A party
of well-to-do merchants from Jacksonville
and New Orleans passed through to-day by
rail. They have a contract with the Santa
Fe road to furnish a special train on the
border line ready to start at 12:01, April
22. It will run at the rate of forty
miles an hour until the party chooses to
stop. In this way boomers hope to
distance balloons and other schemes for
getting the choicest morsels.

Ten wagons from Huntington, Ark., headed
by Editor Wilson of the Herald, were
among the hasty arrivals and departures
to-day. Instead of retarding the rush
reports of the overcrowded condition of the
frontier only seem to accelerate it, and no-
body thus far has turned back. The Price
and Rock Island roads have several corps
of engineers hard at work on their rights-
of-way, and the construction of these lines
seems highly probable. Many of the ar-
rivals are in a most destitute condition and
their horses are worked nearly to death.
But still they push on, losing sight of all
else in the wild desire to reach the borders
of Oklahoma.

HEPBURN FOR SOLICITOR.

The Iowa Man Gets a Good Place in the
Treasury Department.
WASHINGTON, April 1.—The President
has made the following appointments:
William P. Hepburn of Iowa, Solicitor
of the Treasury.

William H. Whittman of New Mexico,
Associate Justice of the Supreme court of
the Territory of New Mexico.

Gen. William P. Hepburn represented
the Eighth district of Iowa in Congress for
several terms. He was born in Columbus
county, Ohio, in 1833, and began the study
of law in 1853. In 1856 he was elected

prosecuting attorney of Marshall county,
Iowa, and was subsequently elected chief
clerk of the Iowa House of Representa-
tives. He served in the Union army dur-
ing the war and at one time commanded
the Second brigade, cavalry division, Six-
teenth army corps. He was recommended
for the solicitorship by the leading men of
his party in the State.

SEXTON GETS THE PLUM.
He Is Named as Postmaster for the City
of Chicago.

WASHINGTON, April 17.—President Har-
rison has appointed Col. James D. Sexton
to be postmaster at Chicago. This appoint-
ment has for so long been regarded as a
foregone conclusion that Chicagoans have
never been talking nor doing much about
it. It is a well established principle in
the disposal of the patronage that a
Senator of the administration party shall
have the naming of the postmaster of his
own city, and Senator Farwell's prefer-
ence for Col. Sexton was understood as
long ago as December. The Chicago
Congressmen, Messrs. Adams, Mason and
Taylor, were all favorable to Col. Sexton,
but if they individually had any other
preferences they suppressed them because
Senator Farwell lives in Chicago and his
appointment was recognized as his perqui-
te. Senator Farwell had Gen. New-
berry's resignation in his possession or
within his reach before he got him con-
gratulated last January, and the change was
simply a question of the Senator's con-
venience. It pleased him the other day to
send the Postmaster General his recom-
mendation of Sexton and Senator Culham
concurred in this, so there was nothing
more to be done except to make the ap-
pointment as soon as the Postmaster
General and the President got ready to act.

NO CARS ARE MOVING.
Minneapolis Entirely at the Mercy of
the Strikers—Importing Cowboys.

MINNEAPOLIS, Minn., April 17.—Six
days have passed since the street cars
running in Minneapolis. Despite Presi-
dent Lowry's assurances to the contrary no
attempt was made to-day to take out cars.
So many of the cars are in the hands of
the company has not made any effort to furnish
transportation to the public beyond the
abortive movement of last Friday, which
was frustrated by merely a suggestion of
opposition on the part of the strikers.
The company claims to be anxious to
move cars when the Mayor promises police
protection. He will not promise this until
the strikers are in better organized.
The shop employees were this
morning required to take out cars and quit
work shortly after 10 o'clock. About all
the men on the pay-roll of the company
now are the office employees and foremen
of the different barns. Efforts to settle the
trouble by arbitration seem to have been
abandoned.

GARDEN, Kan., April 17.—In re-
sponse to telegrams from the president of
the street car lines in Minneapolis the fa-
mous Buffalo Jones started from here last
night for that city with fifty cowboys.
They are all fully armed and equipped with
bowie-knives, revolvers, and Winchester
rifles and threaten to make short work
of the strikers if interfered with in running
street cars. Many of the ranchmen
just from the plains, and with their wide
sombrero hats and regulation cowboy
paraphernalia present a picturesque and
awe-inspiring appearance. They will re-
ceive \$100 a month and all expenses, and
are pledged to run street cars despite all
obstacles.

Pennsylvania May Not Participate.
PHILADELPHIA, Pa., April 17.—It seems
to be quite doubtful whether or not the
8,000 militiamen of Pennsylvania will par-
ticipate in the centennial parade in New
York. The First regiment resolved last
night that the Governor should excuse it
from taking part. Representative De-
den was about to introduce a bill yester-
day to provide for the payment of the
necessary expenses, but refrained from
doing so at the request of Gov. Beaver,
who, it is said, thinks New York should
entertain the troops.

THE SHIP OVERLOADED.

OVER TWICE HER LIMIT OF
PEOPLE ON BOARD.

The Denmark Only Allowed to Carry
300 Passengers, Yet She Had Over
700—Casualties.

New York, April 17.—The fate of the
passengers of the steamship Denmark is
yet a mystery. It was learned to-day that
while the Denmark had over 700 souls on
board she had accommodations for only
147 stowage and eighty first cabin pas-
sengers, and only sufficient life-saving ap-
paratus for less than half of the 700
passengers. These facts have not been dis-
closed by Funch, Edye & Co., the agents
of the Thingvall line, but the record of
the inspection of the steamer made when
she was last in these waters is the irrefuta-
ble proof of these startling facts.

Oct. 19 last she was boarded by the
United States inspector of foreign steam-
ships and it was found that she had only
six boats, four of which number were life-
boats, one life-raft and 500 life-preservers.
Her passenger accommodations showed her
capable of properly carrying only eighty
first-class passengers and 147 stowage pas-
sengers. The inspection showed the vessel
to be in sound condition and perfectly sa-
feworthy. On the supposition that the pas-
sengers were taken off the sinking Den-
mark by a steamer or sailing vessel it
would yet be impossible for them all to
have been taken off in the six small boats
and the one life-raft in any reasonable
length of time. Not more than 300 at the
most could have left the vessel by the
ready means at hand when the vessel was
in a sinking condition, but the record of
Nine days have now elapsed since the
steamship was seen abandoned by the City
of Chester and the agents of the Thingvall
line still cling to the faint hope that her
passengers had been taken off and are now
safe on board some vessel.

Capt. Smith of the British steamer La
Flandre, which has arrived at Philadelphia
from Antwerp, was the commander of the
ill-fated Denmark before her change of
ownership. He says that the Denmark
was a remarkably strong vessel. She
was built in water-tight compartments,
and water tanks from the bridge aft
and was extra braced with iron
above the upper works. He said she was
one of the strongest built vessels he was
ever in. Capt. Smith said that he had
crossed very close to where the wreck was
sighted. "If the boats were picked up by
a sailing vessel," he said, "her proper
course would be to stand for the Irish
channel. Of course a sailing vessel would
continue her voyage with such a crowd on
board unless the port she was bound to
was the most easily reached. It would
take longer for a vessel to make the Azores
than to fetch the Cape Verde islands, and
the Denmark was seen, because the wind would
be mostly ahead. The distance to the
Fastnet light would be about 1,100 miles,
and with the wind we have had a sailing
vessel ought to make it in about eight
days."

Fatal Explosion in a Powder Mill.
TROY, N. Y., April 17.—A portion
of the works of the Schaghticoke
Powder company was blown up last
night by the explosion of 500 pounds of
material in a mixing vat. Charles R.
Ross was killed and Murvin Bonney was
received injuries which will probably be
fatal. The damage to the property is
about \$5,000, and the works, which were
turning out 5,000 pounds of rifle powder
daily, will shut down for about six weeks
until the buildings and machinery are re-
placed.

Serious Accident at a Dock.
WEST SUPERIOR, Wis., April 17.—Five
bents of the superstructure which the con-
tractors are erecting on the Great North-
ern dock fell this afternoon, seriously
injuring two men. Augustus Smith, an
Irishman, was killed and Jacob Sunquist
had his right arm broken in two places.
Both men were at the top of the structure
at the time it gave way.

A British Steamer Disabled.
QUEENSTOWN, April 17.—The steamer
Bridgeton, of the British line, which left
Fastnet Monday in a disabled condition,
arrived here this morning in tow. She broke
her screw shaft Monday morning about 7
o'clock, and the vessel was forced to stop.
Head. She is waiting here for a tug to
take her to Liverpool.

A Village Fire-Sweep.
MICH, Mich., April 17.—Fire broke out
in the basement of the Daken house Tues-
day morning and burned that building, to-
gether with thirty-five other stores and res-
idences. There is no fire apparatus in the
village, and assistance was called from
Ionia.

Captain and One Sailor Drowned.
BEAUFORT, N. C., April 17.—The
schooner Rio Lupton, for Elizabeth City,
sailed six days ago in Alamo Sound. The
captain and one of the crew were
drowned. The vessel will be saved.

LOUIS KOSSUTH DYING.
The Old Patriot Can Not Live Many
Hours Longer.

LONDON, April 17.—Dispatches from
Turin say that Kossuth is growing weaker
and weaker. His family and friends are
watching around his bedside. Emperor
Francis Joseph has sent inquiries and re-
quested to be kept informed of his condi-
tion.

Gov. Pillsbury's Generosity.
ST. PAUL, Minn., April 17.—In view of
the shortage in the appropriation of the
state for the maintenance of the Minnesota
State university Gov. John
Pillsbury, who is one of the regents of
that institution, has presented the sum of
\$150,000 for the immediate use of the uni-
versity. The gift was announced to mem-
bers of both branches of the Legislature at
a meeting with the regents.

The Charleston's Trial Trip.
SAN FRANCISCO, Cal., April 17.—It was
officially stated to-day that the cruiser
Charleston would probably start on her
trial trip next Friday. She has finished
coaling and yesterday took on board large
quantities of haws and gaskets, and ap-
paratus. On Saturday, while lying at her
dock, fires were started in the furnaces and
the machinery worked perfectly.

The Vandalia to Be Repaired.
LONDON, April 17.—The British ship

Toddington Don (4116) is a very powerful horse with lots of quality, heavy bone and grand action. He stands 16 hands 3 inches high on short legs, weighs twenty-two hundred pounds and has a very kind disposition.

The entire wood work and furniture in the store is finished in oak. At the rear and center of the store, a large arch has been put leading to the prescription room, which is complete in every respect.

At the right of the prescription room is a large room used for laboratory work, and at the left, the office which is nicely furnished. The store is twenty-two feet wide by eighty-five feet deep, and could not be more conveniently arranged for the purpose.

Mr. Heimstreet pays his personal attention to the prescription department, and has had over twenty years experience in the drug business. He is assisted by Mr. W. E. Crawford, who is a registered druggist and has lived over eight years in Janesville.

The store is stocked with everything needed in a first class drug store.

The carpenter work was done by George Barriage, painting and decorating by Rogers & Hutchinson, and plumbing by H. E. Merrill & Co.

Saturday, Mr. Heimstreet expects to see everyone at the store, as he will keep up his custom of presenting Easter cards to every caller (on that day). He has also procured a new fire alarm card, which not only gives the number of box, but explains to every one can tell just where to locate it. These he gives out on Saturday to all who call.

EXCURSION

FROM JANESVILLE TO CHICAGO.

Arrangements have been made for the semi-annual excursion from Janesville to Chicago, which will take place on Tuesday, April 30th, over the Chicago & Northwestern railway. The centennial celebration of the inauguration of President George Washington will take place in Chicago at that time, thus making it a most desirable time to visit the metropolis of the west.

Round trip tickets will be sold for \$2.75, good to return on any train for four days. The regular train leaves Janesville at 7 a. m. Tickets will be on sale at King & Skelly's bookstore on Friday, April 26. In order to secure a sufficient number of cars tickets must be purchased by Monday noon April 29th. Orders from out of town by telephone, mail or telegraph, will receive prompt attention. This will be the only cheap rate to Chicago before fall. Those who desire to visit the Garden City should make a note of it.

NEW YORK DRUG STORE.

A Well Apportioned and Neatly Arranged Business House.

Don't Fail to Call and Inspect It On Saturday.

To any person who has not been in Heimstreet's drug store for a month past, a surprise awaits them. A force of carpenters, painters, decorators and plumbers have been at work, and Mr. E. B. Heimstreet, the proprietor, has now the largest, neatest and one of the finest drug stores in the northwest. The front of the store is painted black and gold with the exception of the doors which are antique oak. The old front has been taken out and new windows put in of French plate, each glass being six feet wide and nine and one-half feet long.

Entering the store, we find everything changed. The ceiling is light blue panels with dark borders and divided in squares by a copper and gold moulding. The side walls are painted in tints with borders and panels all painted, handwork. A new floor over the entire store of white, maple, oiled and polished. At the right as you enter, a large soda fountain with all the fancy fixings, also a large milk shake of the latest pattern. On the left, a large space raised and divided off by a low railing. This corner is carpeted with Brussels carpet and the walls hung with paintings. A fancy cabinet filled with plush goods sits at one side and several chairs and a carved table are in the center; this is intended for ladies when waiting or looking at the studies of paintings, of which Mr. Heimstreet carries the largest stock in the state. In the center of the store is a large fountain holding 50 gallons of water, and filled with gold fish.

The entire wood work and furniture in the store is finished in oak. At the rear and center of the store, a large arch has been put leading to the prescription room, which is complete in every respect.

At the right of the prescription room is a large room used for laboratory work, and at the left, the office which is nicely furnished. The store is twenty-two feet wide by eighty-five feet deep, and could not be more conveniently arranged for the purpose.
